Can Racks

ALUMINUM CONSTRUCTION

Applications: Can holding, storing and organization. Inclined angle and T-Bar guides provides easy access for can selection, rotation and inventory control. Holds both #10 and or #5 cans. Front or rear loading. First in first out when loaded from rear.

Construction: Heavy duty, high tensile, extruded aluminum. Type 6063-T5 alloy. Features a life time guarantee against rust. Shipped assembled for immediate use.

Can Slides: Sides are 1" x 1-1/2" extruded aluminum angle and T-bar heli-arc welded to frame. Bottom load ledge design.

Frame and Cross Supports: Vertical and horizontal frame sections are 1-1/4" extruded aluminum tubing.

Casters: 5" diameter, full swivel design. Non-marking polyurethane wheel on mobile models.

Options: Caster Brakes (set of 2) /011

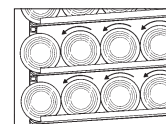

CSR-9M

CSR-4M

Inclined can guides provide easy access and facilitate stock rotation when loaded from rear.
